atient Name:	Date:
We at,	, are required by the federal and state
laws to educate all	patients 18 years and older on Advanced Directives and self-
determination polici	<u>es.</u>
An Advanced Direct	ive document indicates and stipulates a person's choice of
treatment should they	become mentally unable to make decisions for them self due
to injury or illness. A	iving will, durable power of attorney, or codes status in case
of emergency are se	ome of the choices that illustrate an Advanced Directive. It
allows the person to st	ate bow medical decisions are to be made when his/her ability
is lost.	
I. Do you have a will o	or Advanced Directive?

Some information on this form may not apply to you. Just don't answer those questions. Some may seem fairly personal or odd. The reason for these questions is to appropriately document as much information as possible so that we, as the medical practitioners, will make better informed decisions regarding your care, and save time asking questions that you have already answered. This is also partly to help in auto claims and insurance claims in regard to pain issues, as these can be very difficult to document and appropriately prove to the insurance companies. Please be as specific as you can in your answers. As always, this is completely confidential as per HIPPA regulations.
